

SWEDISH LOGISTICS COMPANY INQUIRE OPENS OFFICE IN HELSINKI

“By establishing ourselves in Finland, we are proving our home delivery concept in the Finnish market for one of the Nordic region’s biggest home electricals chains.”

Christer Strand – CEO, partner, and logistics specialist at Inquire – tells us how the company already has branches in Norway and Sweden, and hired its first employee in Finland in February of this year. Now that Inquire is hiring further people in Finland, it has decided to open a Finnish branch with an office in Helsinki.

“By establishing ourselves in Finland, we’re hoping to make more Finnish stakeholders aware of the benefits of our logistics and delivery solutions. Added to that, we need Finnish-speaking employees on-site who know the market,” says Strand.

Inquire’s solutions give clients full control over the entire supply chain and puts the recipient’s delivery experience at the heart of what they do. This is achieved by offering an established and wide range delivery services, as well as a huge freedom of choice for recipients. Although clients have their own transport agreements, Inquire supplies procurement and development skills. In addition Inquire supplies systems and an operations department that manages the day-to-day planning and monitoring of all deliveries.

“With smart and sustainable delivery planning, merchants become more cost-effective and environmentally friendly. This enables them to offer a much better service and deliveries tailored to the recipient,” Strand concludes.
